

Hi Advertiser!

Want a higher
ROI and a margin advantage?
We can make it happen.

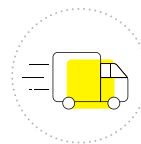

20 % cost savings with 100 % result

As the largest external Google CSS partner in the German-speaking countries, we offer the benefit of access to the Google Shopping Auction. Your **margin advantage** will cut your CPC in real terms, resulting in **cost savings of up to 20 %**. This means: The competition is simply outbid. Used in the same way your **ads have an advantage** over normal bookings.

You want **cost savings** or
range increase?

In contrast to Google Shopping, **no margin is deducted** via the CSS partner when making a bid. Your **bid** is thus carried over 1-1 into the auction. You choose between **two strategies**:

1. Cost-saving strategy

You reduce your costs with the same turnover.

2. Range-increase strategy

You generate more clicks and sales at the same cost.
